

Login page

The login page features a white form centered on a green background with a blurred image of a person. The form has a title 'Login' and two input fields: 'Username' and 'Password'. Below these fields are two green buttons: 'Log In' and 'Register'.

Registration

The registration page has a green header with 'Our Services' on the left, the MBIP logo and name 'MBIP(Majlis Bandaraya Iskandar Puteri)' in the center, and a 'USER' button on the right. The main content area is a white form titled 'New user Registration' with a green header. It asks the user to 'Choose Type of Users' with two options: 'TECHNICAL' (represented by a wrench and screwdriver icon) and 'PARTICIPANT' (represented by a group of people icon). Below these are input fields for 'Full Name', 'Date of Birth' (with a date picker), 'Phone Number', 'Address', 'Email', and 'Password'. A green 'Submit' button is at the bottom of the form. The footer is green and contains 'MBIP' on the left, 'Contact' information (WhatsApp Admin: +6012 345 678, Email: mbip@gmail.com) in the center, 'Links' (Home, Carbon Footprint, Track Progress, Generate report) on the right, and 'Reccomandation' (Support, Privacy Policy, Term of service) on the far right. A copyright notice '© 2023 Copyright: MPIB.com' is at the bottom center.

LOW CARBON MONITORING SYSTEM

Low carbon initiatives, a global exchange.

Loginregister

OBJECTIVES

IMELC is a program with the objective of increasing awareness of the Low Carbon Society (LCS) among students, teachers, and families in Iskandar Malaysia to achieve the carbon reduction target by 2025. In addition to this, the e-Lestari initiative was developed in 2022, specifically for the JPNJ, to monitor low carbon emission initiatives in schools. The e-Lestari system, which is relatively new, focuses on integrating sustainability elements into the curriculum and co-curricular activities, improving sustainability education, managing and evaluating integrated sustainability programs, raising sustainability awareness and building capacity, and conducting energy audits. With data from 1180 schools, the system is capable of evaluating district performance, electricity and energy savings, and categorizing schools as Showcase Schools/ Transition Schools. The JPNJ officers have provided positive feedback on the system's ability to report yearly performance on environmental and sustainability education.

HOW TO APPLY?

1. Register

Join our platform by creating an account and registering your details.

2. Document Submission and Validation

Submit relevant documents and undergo a validation process to ensure accuracy.

3. Update Carbon Footprint

Regularly update your carbon footprint data to track changes over time.

4. Track Carbon Reduction Process

Monitor and track the progress of your carbon reduction initiatives.

5. Generate Carbon Footprint Calculator

Create a customized carbon footprint calculator tailored to your needs.

6. Winner

Celebrate success! The participant with the most significant carbon reduction achievements is the winner.
